

Underground Pipe & Asphalt Replacement (UPAR) FAQ

1 What is the City planning to do on my street?

- ⇒ The City will be undertaking a series of important road repair activities on your street. These improvements include:
 - **Lane Grading:** The surface of the road will be smoothed and leveled.
 - **Concrete Installation:** A curb and gutter system will be installed to help manage and redirect stormwater.
 - **Asphalt Paving:** A new layer of asphalt will be applied to the road.

2 What are the specific areas where construction will take place?

- ⇒ Construction will occur at the alley between 91st & 92nd Street and 18th & 19th Avenue.

3 When will construction start and how long is it going to take?

- ⇒ Work is scheduled to begin sometime between August 6, 2024 and early September. See attached map for work zone.
- ⇒ Target completion for construction is estimated to take 2-3 weeks. The length of time required for these projects varies greatly depending on what work needs to be completed.
- ⇒ The project timeline may be modified based on weather and many other factors that can change the course of the construction schedule.

4 Will I be notified of the construction's progress?

- ⇒ Construction signs will be placed on your street to provide timely updates.
- ⇒ The City will post information on its website and social media channels.
- ⇒ The City will be conducting bi-weekly Zoom meetings with representatives from the City and the Contractor. This is also open to the public and will be posted on the City's website so they may be viewed at a later date.

5 Can I park in the back alley during construction?

- ⇒ During construction, you will need to find an alternate place to park in order for the construction crew to work unobstructed and to avoid any damage to your vehicles. The safest place for you and your vehicle is outside of the construction zone.

6 Will there be disruptions to traffic?

- ⇒ Access to the back alley will be blocked off during the construction period.
- ⇒ To assist with driving routes, construction crews will put up clear signage at key points. These signs will direct traffic away from construction zones and guide drivers to alternative routes. Please follow the signs to navigate around affected areas.

7 How will these repairs benefit the community?

- ⇒ These improvements will help manage run-off more effectively, reducing the risk of puddling or flooding and will help redirect stormwater away from property back yards. It will also provide a smoother driving experience.

8 Who do I contact if I have any problems or further questions?

- ⇒ Joe Gagne – Water Works & Roadways Manager – 306-445-1729.
- ⇒ Debbie Gallop – Water Works & Roadways Administrative Support – 306-445-1902.
- ⇒ City Hall – 306-445-1700 (Note: There is after hours emergency support at this number if required).
- ⇒ UPAR-specific inquiries – call or text 306-441-0359.
